San Diego, United States

ABOUT THE WORKSHOP

The 15th International Workshop on Aging & HIV will take place as a hybrid workshop on 24-25 October 2024 in Washington D.C.

The program is full of rich content and actionable insights for your clinical practice.

Register today to secure your place at this **must-attend workshop** that remains the **only platform worldwide** for international, cross-disciplinary scientific exchange on the increasingly recognized difficulties encountered in the clinical care and design of studies to improve the care of older adults living with HIV.

Early-Fee Waivers Available Register Today!

Take advantage of the early registration fee discount and contribute to the search for solutions that will benefit the aging population living with HIV.

**Join us live in person
or virtually!**
